REMARKS

This is a national stage filing under 37 U.S.C. § 371 of PCT/CN2003/001049. Applicants claim priority to Chinese Application No. 02144747.0, which was filed on December 8, 2002. Applicants have provided an English translation of the Chinese language international application. The English translation includes claims that have been translated into English. Applicants herein amend the claims to conform with U.S. practice. The title has been amended to reflect accurate translation of the original Chinese title. The amendments to the claims and specification were not made for reasons of patentability, but instead for reasons of form. The amendments to the claims do not alter the scope of the claims. New claims 7 and 8 have been added. Support for the new claims and the amendments to the claims can be found in the specification and claims as filed. The amendments to the claims and specification, and the new claims, add no new matter. Applicants respectfully request entry of the amendments.

If any fees are due, or and overpayment has been made, please charge, or credit, our Deposit Account No. 11-0171 for such sum.
